<i>Golden ales, blondes, lagers, pale ales</i>	<i>Up to 100%</i>	<i>IPA, Table Beer</i>

We have developed a Scottish Extra Pale Ale Malt for low colour beer styles such as lager, blondes and pale ales. Made from the same barley as our Scottish Ale Malt, its 100% Scottish grown.

It is perfectly suited to the traditional UK brewing style where a single strike temperature is used as the malt has a moderate to high level of modification which gives excellent extract, flavour and run-off.

Use it at 100% for lagers and pale ales or mix in some speciality malts for just about any hop driven beer style.
